

Dear Larry,

Thank you for partnering with the American Cancer Society to help end cancer as we know it, for everyone. Your past support has been exceptional, but we can't stop now.

Each friend or family member who is diagnosed with cancer is one too many. Their journeys — and memories of those we've lost to cancer — often hit hardest during the holidays.

The best gift you can give your loved ones is a world without cancer as we know it. A tax-deductible year-end gift can help make that a reality. Please help save lives by supporting breakthrough cancer research.

Remember, when you upgrade your giving to \$1,000 or more annually, you'll receive exclusive access to cancer news, research events, and more. YOU are the key to unlocking the next breakthrough. Please give today to help fund cutting-edge research. Thank you, and happy holidays!

Bill Dahut

William L. Dahut, MD
Chief Scientific Officer
American Cancer Society

Larry,
Your gift of \$500
today will support research
and help save lives.
Thank you!
